

Pancreatic Cancer 2022 Online Summit Evaluation

90 active participants attended one online session

47 attendees completed the evaluation (47% of total attendees) and **RATED** the Summit **9/10**

98% thought the patient video provided a good understanding of patient experience with pancreatic cancer care in Victoria

Well planned and excellently conducted meeting. Patient and care provider's presentation was the highlight

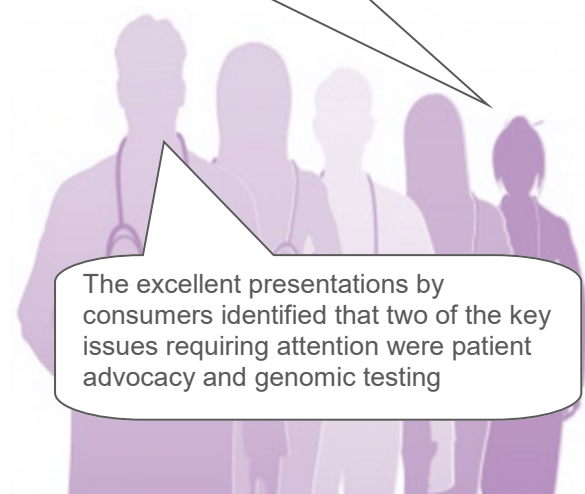

There was excellent engagement of clinicians and there were great discussions

As a consumer I was very impressed with the detailed presentations and can only imagine how much preparation took place

collaborative
educational
unique
enlightening
inclusive
thorough
stimulating
targeted
interactive
useful
interesting
empowering
multidisciplinary
patient-centred
vital
excellent
complex

Good/clear communication before the event

The excellent presentations by consumers identified that two of the key issues requiring attention were patient advocacy and genomic testing
